

**URGENT**

**A recent action by the U.S. FDA has ordered a tissue recovery agency to cease operations. This recovery agency was not associated with SpinalGraft Technologies or Medtronic, Inc. in any way.**

**The FDA issued the order to Donor Referral Services of North Carolina to cease all manufacturing operations after an inspection found serious deficiencies in its manufacturing practices, including those governing donor screening and record keeping.**

**Donor Referral Services is a provider of allograft tissue to companies who compete with SpinalGraft Technologies. We have been assured by our tissue suppliers, including Regeneration Technologies Inc. that they did not process any tissue from this recovery agency and that none of the grafts supplied to us came from this agency.**

**You can assure your customers and medical facilities that SpinalGraft is not involved with the current situation involving Donor Referral Services.**

Sincerely,

A handwritten signature in black ink, appearing to read "Paul Elliott", written in a cursive style.

**Paul Elliott  
Group Director, Global Quality**
